About

BTech Biotechnology student at Lovely Professional University, currently in my first semester. I am learning how biology and technology work together, and building my foundation in biology, lab skills and coding.

Career Pathway

Industry career in biotechnology. Short-term goal: build strong fundamentals in biology and lab work, learn coding, and gain hands-on experience through projects and internships.

Featured Project: This Portfolio Website (in progress)

My first step into web development. A simple personal website that shares what I learn and the work I do.

- **Built with:** HTML and CSS.
- **Hosted on:** GitHub Pages.
- **Status:** first version complete; I will keep adding projects as I learn.

Education

BTech, Biotechnology - School of Bioscience and Bioengineering, Lovely Professional University (1st semester)
Class XII - New Era Public School - 72.8%
Class X - DAV Public School - 88%

Skills

Biotechnology · Laboratory basics · HTML and CSS · Git and GitHub · Teamwork

Certifications, Internships, Leadership
